

Working for UCLA  
Debbie Hastings, Consumer Specialist

I do not want to leave my research job for UCLA  
Because it is the best job I have ever had  
I know that, at our company good-bye party, I will have so much to say  
I will tell you why

I have an incredibly bright future ahead of me  
I know that my peers, supervisors, and co-workers would definitely agree  
I have learned to be a team player and have learned to be efficient  
I know that I was meant to do this job and that it was definitely God-sent

I have acquired skills, diligence, and persistence  
My co-workers and I get the job done and we strive for excellence  
We really care about people and we are highly respected by others  
We see the positive and band together like a big set of brothers

The most important thing I have learned working for UCLA is to set your eyes  
on a definite goal  
So that the job gets done and your dedication does not take its toll  
What I really want to say is: It has been a wonderful pleasure working for UCLA!!!  
The care, support, and genuine kindness of everyone who works there is tremendous  
And it has definitely helped me get better and better at my job every day!!!
