MRS. STEWART SMITH
MYRON STOLP
GEOFFREY L. THOMAS
MRS. LEONARD WARD
ALLEN P. WEBB, Ph.D.
MRS. DONALD YOKAITIS

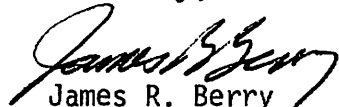

The impacts of Proposition 13, as well as those of Proposition 8 are extremely complicated and uncertain. Many means have been used to influence votes on the two issues. We believe each person should follow his own convictions. However, because of your direct concern regarding the possible impact of the two propositions, not only upon our many services, but upon other important services provided to the community by the many agencies dedicated to mental health, Dr. Mead and the Board of Directors wish to emphasize that we share the same goal. We are jointly committed to seeing that everything within our powers will be pursued to insure that our many important services continue to meet the needs of the community in which we are located.

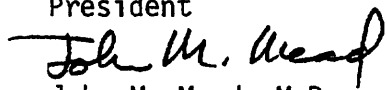

We wish we could say to you that exact solutions were at hand, but we cannot. We wish we could say that business will be "as usual" after the June 6 election, but very honestly, we just don't know. We hope it will and we will do our utmost to see that it is!

We at the Pasadena Child Guidance Clinic and its affiliated Clinics are in the fortunate position of being affiliated with a fiscally sound agency. We will not be immediately paralyzed by the passage of either Proposition 13 or Proposition 8. We will weather this storm as we have weathered so many since our inception in 1926.

Thank you for your continued support.

Sincerely,

James R. Berry
President

John M. Mead, M.D.
Medical Director
