We are Planning to set up a chart such as the Marin Parents Group has, giving statistics regarding the mentally ill person in the family. No names are used but it gives age, sex, Length of Illness, age at first cycle, period of duration, conservatorship (Yes or no), police record, present residence, housing experience, hospitals, previous work experience and we may wish to include other data. We will have a chart to fill at the next meeting so please bring your statistics. The information will be useful in claims and requests we will be making to various agencies.

The Mental Health Advisory Board meeting on September 6, was attended by a large group of our members and sympathizers in the hope of becoming involved in a discussion on evaluation of the present program. Unfortunately, this part of the agenda was postponed because of lack of time.

Enclosed is a list of recommendations we presented to the Board on behalf of our group. Let's continue to attend these meetings.
